REQUEST FOR PUBLIC COMMENT ON A PROPOSED MODIFICATION TO OKLAHOMA'S WATER QUALITY MANAGEMENT PLAN FOR MARSHALL COUNTY RURAL WATER AND SEWER DISTRICT NO. 1

Public Comment Period Begins: January 20, 2023

Public Comment Period Ends: March 6, 2023

Permitee: Marshall County Rural Water and Sewer District (RWSD) No. 1 (previously known as Pointe Vista), 12428 Chickasaw Pointe Rd., Kingston, OK 73429. [Facility Legal Description: Section 26 and 36, Township 6 South, Range 6 East, I.M.]

Receiving waters and location: Texoma Lake, Washita River Arm, Lower (WBID: OK310800010011_00) (Latitude: 33° 59' 55" North; Longitude: 96° 38' 49" West).

Marshall County RWSD #1 requested a 208 Plan modification to increase design flow from 0.22 MGD to 0.4 MGD due to the increase of planned area and projected population. However, the facility has not been discharging its wastewater to the receiving waterbody [Texoma Lake, Washita River Arm, Lower (WBID: OK310800010011_00)]. Texoma Lake, Washita River Arm, Lower is impaired for DO and Chloride. The WLA limits were based on

lake discharge limitations for lakes impaired for low DO in the Continuing Planning Process (DEQ 2012 CPP, pp. 43-44).

The following limits are recommended for inclusion in the Oklahoma Water Quality Management Plan (208 Plan).

Pointe Vista North WWTP

Proposed Design Flow:
Year Round:

0.4 MGD
5.0 mg/L CBOD₅, 2.0 mg/L NH₃-N, 15.0 mg/L TSS; 5.0 mg/l DO; 1.0 mg/L TP; and bacteria disinfection.

These limitations are minimum requirements. If a Total Maximum Daily Load (TMDL) is approved for the waterbody, any more stringent limitations contained in the TMDL will apply. The comment period will be open for 45 days. If you have any concerns regarding these proposed limits, please submit your comments in writing by the end of the workday on **March 6, 2023**, to:

You may also request a public meeting in writing. If there is a significant degree of public interest, DEQ will schedule a public meeting. After evaluating comments received and making any necessary changes, the WLA will be submitted to the U.S. Environmental Protection Agency (EPA) for final approval.
